FOREIGN BROADCAST INFORMATION SERVICE

Of Special Interest This Week

+ The FBIS Science and Technology Center was inaugurated on 21 January. The Center will focus on Soviet sciences and applied research as well as global competitive and emerging technologies.

+ FBIS has completed its content/reception survey of Philippine radios from Clark AFB and Cebu City, finding that a small recording relay site in Cebu would provide the best access to previously-unheard opposition radios. Negotiations are underway with the Department of State for permission to establish a unit in the Cebu office as soon as possible, preferably within the next month.
